AT A GLANCE

THE NEXT MEETING of the South Coast Orchid Club will be held at 8pm on Tuesday the 10th August 2004 at St Bernadette's Hall, St Mary's. One membership fee covers all three groups in our Club.

Guest Speaker: David Pettafor. David is a very interesting speaker who has travelled extensively and is just back from Tasmania. I wonder what orchids he found there? See page 2 for a brief history

BEGINNER'S CLASS. 7.15 pm before the main meeting.
Helmuth Gerber: Growing Intermediates

DAYTIME At South Brighton Community Hall, Dover Square, Broadway, South Brighton Thursday 12th August 2004 at 2pm. Guest speaker: Phil Smoult on Fertilizers.

SPECIES GROUP Monday 2nd August 2004 at 8pm. South Brighton Community Hall, Dover Square, Broadway, South Brighton.

THANKYOU Geoff Spear for last months raffle plants.

RAFFLE PLANTS for August: Donation.

LUCKY NAME BADGE Make sure you wear your name badge. You may win a prize!!

BIRTHDAY DRAW: Put your name in the box. You may win a prize.

MONTHLY ROSTERS

Supper: D. Carassai, H Alsop Computer: B Gay Hostess: H Alsop.
Registrar of the Month: John Gay Panel: P&D Harmer, R Pankoke, I Attenborough, N Oliver

PLANT VISITS

Sunday 1st August at 10.30: Graham Morris (Valley Orchids) Cultural Day and BBQ lunch.

Sunday 29 August **Note DATE change** at 11am: Tom Burian Orchids, Lot 25 Heinjus Rd, Strathalbyn, BBQ lunch.

Graham and Tom both enjoy passing on their knowledge to growers so come along with all your questions. Plants will be available for sale at both nurseries.

2005

ABOUT OUR AUGUST SPEAKER

David Pettifor was a plumber, later a Policeman in the U.K. until 1963 when he became a plumbing contractor and later a restaurateur in South Australia and Tasmania.

He certainly had absolutely no interest in little flowers of any kind.

Being introduced to Native Orchids in Tasmania - and having his wife shoot through in 1995, he decided to live again. Deciding to check out these little flowers, he joined NOSSA, ANOS, Vic and Devonport, Tasmania orchid societies and, as we all do, went silly in the head. He now grows many of the Terrestrial Orchids of Australia.

Trips to the U.K. in 2000 and 2002 then made it English Terrestrials, and it is all BAD from there.

NEWS FROM THE SPECIES GROUP

Seventeen members attended Species Group. It certainly was a very cold night but members managed to bench 15 beautiful plants.

Congratulations to G & P Flavel who brought along their *Rossioglossom grande*. At OCSA the previous week it was awarded an HCC and Cultural Award! The plant had 6 spikes and each spike carried 2x8, 2x6, 2x7 blooms. It is a magnificent plant. Taking to Geraldine afterwards she told me it will grow cold and likes the same conditions as the Cyms.

Epi nocturnum took my fancy! A lovely progressive flower, if you

cut off the spike it will not flower next year. *Pleuro alleni Panama* was a fascinating plant with tiny brown flowers. To get its full beauty you need to look at it under a magnifying glass.

The Species group are once again showing at the Winter Show at Pasadena. Have a look as I know you will be tempted to know more about these little beauties.

Come along and see us on the first Monday of the month at 8pm.

Winter Show Members Remember!

Wednesday 28th set up 4pm.

Put in at 5pm.

Judging 6pm.

We excelled ourselves at the SAROC Fair. Let's do it again!!

Ryhynoclaelia digbyana

Rossioglossum grande

WHAT'S ON BEFORE THE MEETING?

Trading table: Don Beibrick and all his goodies. Don has a lot of knowledge about his plants. Ask him, he is only too happy to pass on a few tips.

Raffle Tickets: See Peter Fenton, he also loves to have a chat. Don't forget your lucky square for the 'bag of bark' draw in August!

Library: Henk has many lovely books in his library. A very popular one is 'Good Bugs, Bad Bugs'. Check out the new ones new ones donated by our Patron.

Treasurer: Robin Pope. Robin often comes to a meeting straight from work and then goes home for her night meal.

HAPPY 100TH BIRTHDAY

Arnold Ransley, a member of the SCOC Afternoon Group, turns 100 in August.

Happy Birthday Arnold.

COMMITTEE MEMBERS

President: Geoff Spear Vice president: Murray Baulderstone

Treasurer: Robyn Pope Secretary: Lucy Spear

Dorothy Carassai, Hank Van Leuveran, Hazel and Des Alsop

Relieving Registrar of judges: Gordon Brooks Editor: Ron Parish

If you are seeking help ask a Committee member.

PRESIDENT'S MESSAGE

Dear Members,

I am so pleased to see August has almost arrived. Through July we barely saw our own house, but what fun we had.

At the beginning of July it was the Country Challenge at Ararat. We left in the early hours of Friday morning and had the most fabulous time. What more can one ask for: magnificent orchids, great company and succulent food? It was a most enjoyable weekend. Please start saving up for next year.

The next weekend was the Murray Bridge show. This is always a weekend to keep free. Orchids, photography and floral art; we could all learn a lot from the show they put on. The same weekend was put in for the Cym Club at Munno Para. This is always a credit to the Cym club members who put in a lot of hard work and organisation that certainly pays off.

Then there was our own show. I can't write much about this as the Gazette must go to print but you will read about it next month and in the 'Stop Press'!!

Members, I have noticed a lot of pots at cultural meetings and shows do not have show numbers on them. Putting your show number neatly on the side of your pots is a must. When a lot of plants are together either on the show bench or at the show it is very easy for a member to pick up the wrong plant. I know I did it at the SAROC Fair. This causes a lot of anguish to the grower and to the person who inadvertently picked up the pot so please mark the pot with a small piece of masking tape on which you can write your show number.

I hope you all enjoyed our birthday meeting but next year is the big one...4-0! I wish I were 40 again and know all I know now!

The Committee was very excited when I passed on the information about our Judges Meeting. This meeting was arranged to talk about a Registrar (as Gordon Brooks is unable to carry on). We all came away from this meeting knowing that SCOC has a team who are going to give us the best and most organised panel of Judges that any club could ask for. All of these judges have years of experience and different points of view that were put to the committee. I find it very exciting to present them to you, the members.

Things to look forward to are 'Flower of the Year' judged by members, Club Awards, Ira Butler and Bill Murdock's Trophies, to name but a few of the things to come.

For the 'Plant of the Night' award, members now have a choice between a glass or a \$5.00 certificate which can be cashed in or used to reduce the cost of your membership.

On behalf of the Club I would like to thank Gordon Brooks for helping us out as Registrar over the past few months as I know what a busy lifestyle Gordon has. From myself a big thank you too Gordon, you're a true friend.

Well members, on a lighter note the shortest day of the year has passed so spring must be on the way.

Good growing! Regards Geoff

WELCOME BACK

Rejoining us as members are The Smith Family and Marie Bravery

REPORT FROM THE DAYTIME GROUP

Hi everyone! The Daytime meeting was a very lively one this month due to it being the Clubs 39th Birthday. We had 19 members in attendance; apologies were put in for Murray Baulderstone, Ruth and Bill Clark, Joy Roberts, Arnold Ransley and Wiera Bicanin. Take care all of you, we hope we can catch up soon. Mrs Marie Bravery has rejoined the Club again. Welcome back Marie.

Noel Oliver was our Guest Speaker this month. He gave us a lot of information on Terrestrials, as he said, not his forte but I'm sure we all learned something new. His passion is Sarcophilus, which he also spoke on. He brought along a few of his smaller plants for sale. Thank you Noel, well done and much appreciated.

We had 8 plants benched, all different genera so we had a lovely selection of flowers, all well grown and looking great. Geoff Spear Cym, Kaham Flame 'April' was judged best of all by Noel who praised the standard of the plants. Thank you to all who participated. A lovely afternoon tea was prepared; balloons, cakes and biscuits and a lovely table was set up. Our thanks go to Geoff for the scones. They're always well received and everyone's favourite.

Don't forget our Winter Show starting on the 25th at Pasadena. Please put some plants into the Display. Trading Table plants are always welcome. We all sang Happy Birthday to the Club. I think we made more noise than the night meeting! A very hearty rendition was sung by all!!

Bye Dorothy

OUR 39TH BIRTHDAY

Syd & Shirley cutting our cake

I wish you had all been there! It was a great success; great companionship, delicious supper and a terrific speaker, could you ask for more? Well, there was!

Syd Monkhouse, our Patron, and his wife Shirley, arrived with books for our Library and a painting (Syd is a great artist). The painting is for our Spring Show and it will be known as 'The Patron's Award'. Stay tuned, you may win it!

Thank you Syd and Shirley. We are all glad to have the SCOC and you as our Patron.

SPRING SHOW

Judging Venue is the same as the Winter Show

Date: 18th September 2004

Time: Put in 9 to 10.30 am Judging at 10.30am

Show Venue: as for the Winter Show.

Dates: 19th September to take out 25th September 2004

JUDGES MEETING

The Judges Meeting was held on 26th June to arrange a Registrar for our Club as Gordon Brooks was kind enough to fill this position until we could make other arrangements. Thank you again Gordon. Twelve judges attended this meeting with great ideas for future meetings so you can all rest assured that our Panel of Judges are really going to upgrade our club.

At our regular meetings, the Registrar will be in attendance when you arrive with plants and will direct you to the table for your division. Registrars arrive at 7pm and plants are to be benched 7.45pm. Judging commences 7.50pm.

We are going to use plastic labels in future as these can be cleaned with metho and used time and time again.

Open Division Green plastic labels.

Second Division: Gold Labels

First Division: Buff Labels

These labels are to be secured to a bamboo skewer with masking tape, this way no damage can be done to the plant. Skewers and labels will be available from the trading table. We also have art line 250 waterproof pens.

The Registrar will suggest to members if their plant is worthy of a Club Award and this will be awarded on the night.

We are currently getting more information about how our Club can qualify for the Ira Butler Trophy for Hybrids and the Bill Murdock Trophy for Species. Stay tuned for more information.

The 2005 Flower of the Year Competition has been organised. From February to December 2005 photos can be taken of plants and in Feb 2006 the photographs will be shown to you the members. Members will then vote by secret ballot for the Flower of the Year.

MEETING NIGHTS

If any member has a particular subject that he would like to have as a feature for a cultural meeting or has a topic that may be of interest to our members then please do not hesitate to let Lucy know and every endeavour will be made to carry out your request. We still have 2 vacancies for 2005. Afternoon members let's hear from you. What speakers would you like for 2005????

PHOTOGRAPHS

If you have a particularly beautiful or unusual orchid flower and you are unable to get it to a show or meeting, contact Ron to arrange for it to be photographed for inclusion in the Gazette. No flower is too small (down to less than 1mm). You won't be disappointed the picture is very high quality and will you be able to take it away on a diskette which you can have printed later either by Ron or at a normal 'Photo shop'

The taking of the picture is free and is offered on the basis that we can all share in the beauty of your orchid.

FROM THE GAZETTE

November 1987: From the words of Roger Rankin 'It's a shame that to dream we own a champion, we have to be asleep

GROWING LYCASTE

For successful growing one must realise that Lycaste is a cool growing orchid and does not require heat like Vandas, phalaenopsis etc but prefer conditions such as the Paphiopedilum, Odontoglossum etc. We find season temperatures vary from 35F in winter to 100F in summer and find it necessary to keep them damp with misting under benches to give good humidity. We are successfully growing Lycaste in the bush house under 60% to 70% shade cloth but if using 50% place a few cymbidiums

around to give more shade.

If using an enclosed house one of the most important requirements when you're growing Lycaste or in fact any orchid is air circulation. Make sure you have sufficient fans to keep the air constantly moving. During the summer one can use a cooler to advantage.

Pots and Potting: When potting new growths we always wait for the new growth to show roots before potting. If you cut back bulbs, always do it in pairs leaving a back bulb/s with the growth. Never overpot! As young seedlings grow we pot on progressively from 2.5 to 6 inch pots.

Compost: After many experiments with various mixtures we finally settled for 50% medium bark and 50% fine bark. This mixture is used for nearly all my orchids. Bark is soaked for several days and dolomite lime is added to reduce the acidity. Always make sure of drainage-generally medium bark in a quarter of the pot will do. Any substitute can be used as long as it gives good drainage.

Watering: As we grow about 2000 Lycaste, mostly seedlings, we find overhead watering is best-even those growing outside under saron have heavy rain at times. This keeps the plants clean and rarely do they lose any new growth.

Fertilising: Any soluble can be used on growing seedlings and plants and for flowering plants the nitrogen can be reduced in January by using one with a higher percentage of potassium. One can use blood and bone or Hoof and Horn with less soluble fertiliser.

Pests: To keep plants clear of insects the usual sprays will do plus fungicide for younger plants. We never use white oil as this tends to burn the leaves.

Follow these few simple rules and success should be yours. Hybridisation has produced some interesting and valuable results, particularly with colour and shape and it is my pleasure to share with you the knowledge gained in the successful growing of the beautiful Lycaste.

DISEASES

These can be fungal or viral. They are best prevented by strict cleanliness and good air circulation.

Fungus: Fungal outbreaks can be treated with Captan, Zineb, Maneb, Rovral or Fongarid. As a preventative, once a month spray with Benlate (combined with Kelthane) during Spring and Summer months. If fungus persists Fongarid should be used.

Leaf tip dieback (Anthracnose) is fairly common in South Australia. It attacks plants under stress from any of the following: Red spider mite, Build up of salts in potting mix, Excessive humidity, High temperatures, Insufficient light

The effects or causes of these should be either minimised or eliminated. Affected parts of the leaves should be removed and destroyed as these can carry disease to other plants. A long lasting fungicide should be used. Water plants in the morning so they dry out more quickly before the night.

Virus: THERE IS NO CURE. Isolate plants suspected of being infected and take a leaf wrapped in plastic to an expert for identification. Sometimes plants with root or fertilising problems can produce leaves with suspicious markings, so expert advice should always be sought. If it is confirmed that it is a virus, the plant, pot, label and all should be burned. DO NOT give it away.

POTTING

The usual time to pot is in the spring immediately after the plant has flowered. April is quite a good time, particularly for reds and greens. Plants should not be left in the same compost for more than 3 years as it will have broken down by then and the roots will not be able to breathe. If the plant outgrows its pot before 3 years, re-pot it when it needs it. It will be easier if the plant is on the dry side.

If dividing

- break the plant up so that there are no more than 3 or 4 green bulbs in a piece
- remove old back bulbs (those without leaves). you can leave one if it would otherwise mean having to break the plant into pieces that are too small.
- Clean up the back bulbs
- Plant to almost half their depth in a smaller pot of compost
- Label each pot and write the date of potting on the back of the label.
- Keep dry for several days after potting
- Place in a shadier spot until new growth appears

POTS

Soft black plastic pots with a domed bottom, good drainage holes and fairly upright sides are the best ones to use. They can be reused after they have been washed thoroughly and disinfected in a strong White King solution. Never use plastic and clay pots together.

SROP PRESS – CHAMPIONS FOR THE WINTER SHOW

Grand Champion

176 Paph. insigne var Sanderæ Michael Cunningham (463)

Champion Open Division

173 Odcdm. Hansueli 'Isler' Peter & Geraldine Flavel (487)
