WHATS ON BEFORE THE MEETING

Bark Raffle

Thank you to Jim Shaughnessy who has donated two bags of Bark to be raffled. Tickets available at all meetings at the Treasurers Desk.

Raffle Drawn at June meeting.

PAINTING AUCTION

Painting donated by Syd Monkhouse. A great interest is being shown in this painting. This is a painting of Species Orchids *Telipogon andinum* and *Fernandezia subbiflora*. Artist T Gourley

We will auction this painting at our July meeting.

Quick Note

Jim Shaughnessy and Richard Fishlock you both timed it well while the orchids were in recess. Hope to see you both fit and well real soon.

Seedling Cymbidium Competition

Don't forget the seedling competition

Plants will cost \$5.00 this will be donation to the club.

There will be a \$50.00 prize to the first member to bring a flowering plant to a meeting.

Dorothea Page 'Red Beret' X 'Wallamura" X Yowie flame 'Sherry'

RAFFLE PLANTS – donated by Merv Steele.

LUCKY NAME BADGE make sure you wear your name badge you may win a prize!!

BIRTHDAY DRAW. Put your name in the Birthday box. You may win a prize

MONTHLY ROSTER

? Single Membership \$22.00

? Junior Membership \$14.00

RURAL/INTERSTATE MEMBERSHIP

? Family Membership \$26.00

? Single Membership \$20.00

ANNUAL GENERAL MEETING Tuesday 9TH February 1988

It is the committees decision that spouses of life members have the same rights as that of honorary members i.e. have no voting rights or are able to hold committee position, but have rights for benching plants at monthly meetings or shows.

Life members partners need to pay the difference between family membership and single membership to receive full membership rights.

Please read revised Club by Bylaws

CYMBIDIUM APPRECIATION GROUP

The groups first meeting 26 members attended meeting opened by Geoff Spear Convener. Moss Bray and Graham Morris encouraging new growers how to look after there Cymbidiums.

Then a discussion on Hybridising with Allumination Truss.

Question Time – Many questions were asked what a great learning experience for all who attended.

Please remember second Tuesday of every month.

Meeting is for appreciation, judging of Cymys is carried out at main meeting

Good Cym Growing

Geoff.

PLANT VISIT

Sunday 4th June 2006 – Moss Bray and Graham Morris (B.B.Q)

Sunday 13th August 2006 – Bus Trip

John Gay and Tom Burian.

A MESSAGE TO SECOND DIVISION GROWERS

Workshop to encourage you to show plants at meeting and shows

Sunday March 12th Sunday April 2nd Venue TBA

SOUTHERN REGIONAL GROUP

Happy First birthday congratulations on your first year!

What a very successful group of members all so eager to learn. We are all very proud of you.

All committee attended and had our committee meeting at Elsie and Reg Cliffords home. This was an important decision for committee to make as members of the Southern Region Group now know our plans for the year and now can approach us on any subject they need discussing at committee level.

Thank you, Elsie and Reg for your hospitality and a great BBQ. Once again an excellent attendance with 38 members attending.

Committee attended meeting to celebrate 1st birthday celebrations.

Graham Morris was the Guest Speaker once again he was a great hit with the members

A great day had by all!

Welcome & Congratulations to NEW MEMBERS

Spring Show

Centro Arndale Kilkenny in front of Harris Scarfe Show dates Put in 17th Sept. Take out 23rd Sept.

DAYTIME CHAPTER Well all the fun festivities of Xmas and New Year are all over, so it's now back to the business of growing, fertilizing and caring for our plants a little bit better, as it certainly . To see a new plant flowering is absolutely the best way to start the day. Our Meeting this afternoon was well attended, with Mr John Gay, being our Guest Speaker. John is a very talented grower of many different Genera, winning many prizes with his plants. John's topic was Cattleya Orchids. He showed us today in great detail how to divide and re-pot these plants, showing us fully what he does and what he uses, how to tie up, keeping the plants clean, hanging up and potting up using a smaller pot on the side of the parent pot to which a smaller plant is able to grow into, before being severed from the main plant. Thank you, John for giving such a great presentation, and also for bringing along plants for our Trading Table.

The number of plants benched today was down a bit, however, Don Biebrick was able to bring in four lovely plants in flower for us to admire.

His Cat. Valentines Day "Lisa" was voted No.1 in our popular vote competition, a plant with a huge flower spike with many, many flowers. Well done Don! The move didn't seem to have done them any harm, did it?

A big thank you to Mr Hartley Simon, for the raffle plants he gave me earlier on. These were very much appreciated and thanks also to the other members who gave plants for the raffle.

The meeting was closed, and as it was such a hot afternoon (thankfully we had ceiling fans), a cuppa was certainly the next thing on the agenda.

Bye,

Dorothy

Trophy Winners and The History Behind the Trophy.

- G & P Flavel = Aggregate point winners for 2005 open division
John Leeder Trophy = Best odontoglossum / Oncidium Alliance
(John Leeder worked very hard for our Club he was on the committee for many years, his positions included secretary and president).
Orchid Council Trophy
State Bank Trophy
- Suzanne Saunders
Glen Forest Trophy for Species Paphiopedilums
Glen joined South Coast in the very early days and his first love was Cymbidiums and also grew other genera.
- John Dunn
Steven Gamble Trophy for Australian Natives
(Steven a teenage member of South Coast Orchid Club loved Australian natives Terrestrials. The Trophy was donated in his name when he passed away in 1987).
- Henk Van Leuveran
Elsie Chisholm Trophy for Cymbidiums 60 to 90mm
(This was our first Trophy donated in 1980 for best novelty Cymbidium now 60 to 90mm . Elsie's nickname was Chiz, she joined the Club in the late 60's. Chiz passed away while looking after her orchids in her flowering house with her arms around an orchid plant. Her husband was a war veteran and spent his last days in a nursing home at Magill Nursing home).
- D & K Cammack
Lewis Moore Trophy Highest Agg. Points for Australian Epiphytes (Rosalie donated a tray in 1999 .in memory of Lewis who died in 1989. He was on the committee along with Rosalie for many years both were judges and Lewis was Treasurer, both loved S.C.O.C and worked very hard for the Club)
- H& R Fishlock
W.A Young Trophy = Champion Phalaenopsis Spring Show
(WA Young shade house etc. Business St. Marys).
- H & D Alsop
Roy Hill Trophy Champion Native Cymbidium Winter Show
(Roy became a member in the late 70's. We can't find much information about him except he loved his native Cymbidiums and worked very hard for the Club).
- G & L Spear
Clock Trophy Champion. Winter Show
(Was donated by Helen and Charlie Edwards. Helen is a life member and was convener of the Daytime Group both worked hard for the Club).
- I & R Parish
Sylvester Ng Trophy = Grand Champion Autumn show
(Sylvester is a member of our Club and donated trophy in memory of his brother. Sylvester grows an excellent orchid).
Harry Viney Trophy Champion Cattleya Autumn show
(Donated by Berna Viney in memory of Harrison. "Harry" worked tirelessly for the Club over many years, many positions held including president.

PRESIDENTS MESSAGE

Dear Members,

Congratulations to all the Trophy winners, I hope you enjoyed a trip down memory lane Lucy and I did enjoy gathering all the information about our members who donated Trophy's to our club.

Committee has decided to have a plaque made to be placed in front of all our displays. This will show all the four venues our main club has had meetings, over the past forty years, Victor Harbor, Morphett Vale, Christies Downs, St Mary's, what a great way to preserve our history.

Included in this Gazette you find dates for all shows and Displays, members we always are looking for help on the Trading Table, for the new members all this requires is three hours of your time to come along to the venues and spend that time with one of the more experienced growers, and have fun. Meeting people and learning about orchids for more information see Lucy and Dorothy please don't feel you have not got the information at hand to do this it will be a great learning experience to be with experienced growers.

Thank you to all members who donated plants for our raffles etc not to be greedy but we do need more, our club is growing so fast it is hard to keep up, and our commercial growers are already helping each month, we give away an average of twenty five plants per month, Ron has a Lucky Draw at the Species group so he also would be happy to receive species plants to help out this group, Dorothy also has a raffle with her group and Victor Harbor, needs at least eight plants per month. Each new member receives a plant and they have a raffle. Victor Harbor members enjoy all genera. To donate plants please ring Lucy on 8381 4420.

Autumn time I find exciting with new spikes appearing " could this spike be a "Grand Champion" please protect it with a few snail pellets (But keep your pets safe) still warm weather keep the water and fertilizer up at a regular basis.

Please attend the Beginners Classes a good question to ask Trevor to explain the N.P.K of the Fertilizers.

Please remember your committee is always there to be approached for any help you may need, committee list is always in gazette and phone numbers on front of Gazette.

Make 2006 your year!
Good Growing!
Kind Regards, Geoff

PLANTS WANTED

Members you may have plants you would like to donate to the club. Our club always gives a new member with a plant, plus birthday plants and Lucky Badge receive a plant, you may be able to help please phone Lucy on 8381 4420P.S *Old wrapping paper or ties would also be appreciated.*

On the Bench at the February Meeting

Flower of Open Division and Flower of the Night: *C. Valentine Day 'Lisa'* benched by Peter and Geraldine Flavel. This well grown plant carried a single inflorescence with 15 flowers that were between 80mm and 90mm across. The glossy flowers had vibrant deep purple sepal and petals that became paler at their base. The light lavender side lobes of the labellum curved up over the column and the prominent flat mid-lobe was bright purple.

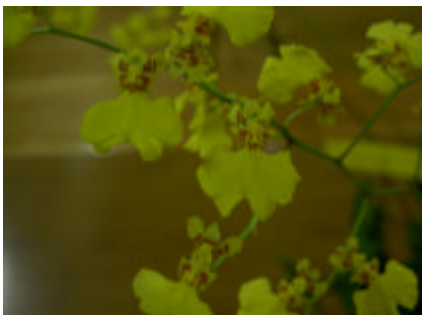

C. Valentine Day 'Lisa' - Peter & Geraldine Flavel

Flower of First Division: *Epilaeliocattleya (Eplc.) May Bly 'Emy'* benched by new member Heather Eaglehardt. The plant carried one inflorescence with two 130mm wide flowers. The sepals and petals were greenish yellow shading to yellow at their base and the attractive labellum was yellow at the base with the outer half being bright purple.

Eplc. Mae Bly 'Emy' - Heather Engelhardt

Flower of Second Division: *Onc. flexuosum* grown by Judy and Rod McRedmond. A well grown plant of numerous pseudobulbs in a small terracotta pot, unusual for this species which is usually grown on a hanging mount. The plant carried five branched inflorescences, three fully open, the remaining two still in bud. The typical small flowers, about 20mm across had yellow sepals and petals with brown markings and the mid-lobe of the labellum was large and bright yellow, typical of the 'dancing lady' orchids.

Onc. flexuosum - Rod & Judy McRedmond

There was a good display of plants in open division from a range of genera, only three plants in first division and seven in second division. They included:

Open Division.

Bev and John Gay benched a very nice plant of a hybrid belonging to the Laeliinae, *Encyclia* (*Enc.*) Bee's Knees. The plant carried two branched inflorescences of 87 and 58 open flowers that were 35mm across. Sepals and petals were mahogany red shading to cream at their base. The cream labellum had upright side lobes and the large central lobe was had fine red veining and a pale yellow edge.

The species *Paph. superbiens* with two single flowered inflorescences, one open and one bud, was benched by Helmut Herrmann. The flower was 60mm across and 90mm high. The pinkish red dorsal and ventral sepals were striped with very deep red. The upper half of the petals had fine spotting on a greenish base and the lower halves of the petals were heavily striped red on a pale base and the pouch was solid deep red-maroon. The upper edges of the petals had dark red nodules with hairs along them and there were small dark hairs along the lower edges too.

Trevor Garard benched *Phal.* (Mae Hitch x Deventiana). It had a single upright inflorescence with six colourful flowers open. They were flat and 60 mm across with sepals and petals having purplish pink veining on a pale creamish base. The labellum had purple side-lobes which curved towards the column and a purple protruding mid-lobe which was yellow at its base.

First Division.

Terri Rees benched a nice Paphiopedilum hybrid, *Paph.* Redstart x *Paph. charlesworthii*. The dorsal sepal had all-over heavy deep purple veining on a creamish white base, the upper half of the petals had a net of deep brownish-red on a lighter base and the lower half had brownish-red veining on a greenish base. The labellum was deep reddish brown.

Second Division.

Miles Harper benched a small well grown hybrid Laeliinae, *Blc.* (Goldenzelle x Erin Kobayashi). Both parents of this plant have a significant contribution of the species

C. dowiana which has large rich yellow showy flowers with a crimson-purple wedge at the front of the labellum. There were five growths on the benched plant, the lead carrying an inflorescence with two flowers 95mm across. Their sepals and petals were greenish-yellow and the yellow labellum had a purple wedge at the front.

Ian Attenborough

South Coast Species Group

On a beautiful sunny Sunday, the 5th February, 21 members of the species group met for a BBQ and social at Ron and Irene Parish's home.

After the sausages, salads and delicious desserts had been eaten the orchids that had been brought by several members were benched and discussed.

The one's that caught the eye were two large plants of *Stanhopea*'s. There are about 55

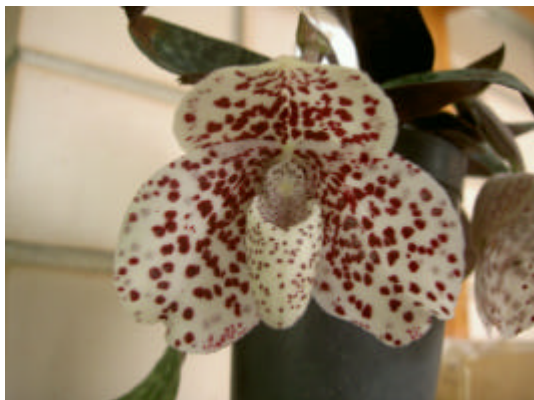

Stan lietzii

species in this genus stretching from Mexico into Brazil. The two presented were *Stan tigrina* in colours of brown, green, yellow and orange, and *Stan lietzii* in colours of creamy yellow. Like all *Stanhopea*'s, these were sweetly perfumed. The flowers are creamy white with maroon stripes on the labellum. The flowers in this species do not resupinate, i.e. they appear to be upside down with the labellum at the bottom of the flower instead of the top. Another highly perfumed species, although to my sense of smell not so attractive, is *Brassia longissima*. All the *brassia*'s are

similar, having large spidery yellow/brown flowers up to 40cms long; the species benched had flowers about 30cms long. Two plants of the successive flowering green with maroon striping *Phalaenopsis fasciata* were benched, along with the related species *Doritis pucherrima*, a delightful white form with yellow wings on the labellum; only a small plant with a very robust stem carrying 3 flowers and several buds (unfortunately the flower was accidentally knocked off whilst recording the details of the plant. The owner was very gracious

Stan tigrina

Paphiopedilum bellatulum

when told of the incident). A charming little plant *Paphiopedilum bellatulum* was seen carrying two large pendulous flowers that hung over the edge of the pot. This species comes from Thailand and Burma, and has white flowers with large maroon spots. A tiny *Dendrobium* from New Guinea mounted on a small log created some interest. It was *Den cretaseum* carrying just one small 10mm cream/yellow flower with lilac stripes on the labellum. Lucy benched this and there is no truth in the report that Geoff is going to switch from growing Cym's to growing this species!!

Other species benched were *Coelogyne massengiana*, *Encyclia cochliata*, *Neofinetia falcate*, *Masdevallia pyxis*, *Masdevallia picea*, *Masdevallia splendens*, *Paphiopedilum barbatum*, *Pleurothallis prolifera* & a cut spike of *Neobenthamia gracilis*.
