WHAT IS LINE

Line is the primary foundation of design and is something the eye sees when it is led along a definite path. Lines should converge at a focal point with the unimportant lines somewhere joining a main line if they do not reach the focal area.

HOW TO ASSEMBLE A LINE ARRANGEMENT

A line arrangement means just that, a lean cut line be it vertical, diagonal, horizontal, L shape, crescent, or logarth.

Determine your line before you start your arrangement then place your background material according by this should give you a clear line which is easy to define.

Now place the rest of your material carefully following thatline. Do not overcrowd.

"Please bring these notes to the April meeting."
