WHAT'S IN A NAME

As an Orchid Club this Club is expected to publish in it's newsletters the names of plants correctly. Likewise Members would like to receive monthly prize cards correctly made out. At the time of judging there is little opportunity to check that the names as displayed on the plants name tags are correct in every particular. Likewise there is no reason why the person preparing the newsletter should have to verify that particulars are correctly given. Members can assist by ensuring that the labels on their plants are exhibited correctly. It is realized that in some cases the fault goes back to the nursery from which they purchased the plant - please give this your attention.

Likewise many Members choose a most favoured Christian name which differs from their given name. It is an act of courtesy to address a person according to their wishes and Members can assist by writing their names in a manner somewhat similar to the procedure adopted on the front page of this newsletter on the piece of paper which they place under their plants.
