The dates for South Coast Spring Show should be a week later:-

Sep20 to read Sep 27

Sep 21 to read Sep 28

Sep 22-27 should read Sep29- Oct 4

"SORRY ABOUT THIS"

ooo00ooo

The next cultural meeting will be held on 13th May 1986 at 8.00pm, benching of plants to be completed by 7.45pm, in the Lutheran Church, Windsong Court, Christies Downs

Please remember that PLATE OF SUPPER.

GUEST SPEAKER - BARRY BAILEY, FROM ENFIELD ORCHIDS

Barry will give a talk on Miniature Cattleyas and Cattleya Hybrids. (he is hopeful of receiving from America a set of slides to illustrate his talk). We can be assured of receiving a very interesting illustrated talk.

ooo0000ooo

REMEMBER at the next meeting members who wish to take advantage of the 'offer' for the publication 50 YEARS : THE AUSTRALIAN ORCHID please place your order with Terry Howard and have your money, (\$32.00) No money means no Order. ooo000ooo

Welcome to our new members Mr & Mrs Cunningham, we hope that your association with the Club will be a happy one and fruitful.

ooo0000ooo

Has oneone thought about having a visitor during the 'ORCHIDS 86' Conference? If so please contact our Secretary for further details.

--ooo00ooo--

We all wish you well Terry, and hope your current visit to Hospital is not a prolonged visit.

--ooo00ooo--

Would you like to purchase a Club's lapel badge, price \$2.50, at the conference there could be a demand for exchange of badges, this is a popular passtime of the conference goer.

CATTLEYA CULTURAL NOTES FOR MAY

by K Staples

It now feels more like the beginning of winter with more frequent showers and cooler days, and nights, temperatures dropping sharply.

Once again overall temperatures on the Adelaide plains seldom worry many types of cattleya and cattleya alliance plants.

Many exhibition cattleyas are in bud or flower with unflowered seedlings one is always hoping for the showbench winner. As previously mentioned stake the bulbs and if necessary support the flower stems. In many instances supporting the stem is only necessary for transportation to shows or meetings. Stake the bulb before the flowers the flower buds have developed very far so that they will be viewed to their best advantage.

CULTURAL NOTES FOR AUSTRALIAN EPIPHYTIC ORCHIDS

by Reg Shooter

Not much happening this month growths should have matured with canes carrying nice healthy leaves, this is a good time to go over your collection and clean any accumulated dust that has settled on the leaves during the summer. With small collections this can be done with a soft cloth and clean water, however if you are lucky enough to have a large collection wait for a nice sunny warm day and give a good hosing off using a water breaker type spray. Do this first thing in the morning to allow the plants to dry off before the cooler evening. You will notice how fresh the plants look and it enables more effective photosynthesis to take place by removing the dust.

oooo000oooo

CYMBIDIUM NOTES

Water as required, the rain season has begun and rain water is 100% better than our so called tap water

Give your plants as much light as possible

Taking care of those 'spikes'

Foliar feed with an even N P K ratio fertilizer

Pesticide dust only plants in spike, you are able to spray the remainder.

Keep potting on those smaller plants as required.

oooo000oooo

The following information was given to our Club members in a paper given by Harry Lambert, several years ago,

FUNGICIDES

Soil- Olin Terrazole ; Previcur

Plant - Ridomil.

INSECTICIDES - Rogor, Metasystox, Kelthane, Dieldrin

'Please treat the above with the utmost of care and use as directed, read directions.'

FERTILISERS

High Nitrogen - Urea, Sulphate of Ammonia, Blood & Bone, Fish Emulsion, Nitrosol, Formula 20 and Potassium Nitrate.

Low Nitrogen - Growlush, Blossom Booster, Sturdy

Acceptable Slow Release Fertiliser - Magamp, Osmocote, Nitrophoska & Growwel B & B (granulated blood & bone)

N.P.K. RATIO:- All fertilisers in Australia have branded on their package their N.P.K., percentage ratio, i.e. nitrogen, phosphorous and potash content.

Therefore a fertiliser showing a N.P.K. of 30:10:10 such as one in the Grow Lush range indicates a high nitrogen fertiliser, whereas one with a ratio of 10:30:20 would indicate a low nitrogen fertiliser high in phosphorous and potash.

COMPST PH:-ACID - release nitrogen tends to bind in phosphorous & potash

ALKALINE - releases phosphorous & potash and tends to bind in nitrogen

ACIDITY ADDITIVE - Phosphoric or hydrochloric acid and or garden sulphur

ALAKLINE ADDITIVE - garden lime or dolomite.

EXHIBITORS' RULES - WINTER SHOW - 1986

1. All exhibitors must be financial members of the South Coast Orchid Club of South Australia Incorporated.
2. Entries are free.
3. Exhibitors are bound by the Constitution, Rules and By-Laws and Special Show Rules of the Club.
4. The opinion of the Judges is final and binding and no objections or discussion regarding results will be considered with one exception of an infringement by an exhibitor of any of the Club's Laws, By-Laws, or Show Rules. Any objection in this case must be lodged with the Club Show Marshall.
5. The Club accepts no responsibility for any loss, damage or infection suffered by any plant or blooms exhibited.
6. The Club reserves the right to photograph any of the exhibit if it should so wish.
7. In all matters regarding the arrangement and conducting of the Show, with the exception of matters pertaining to the judging, the Show Marshall is the ruling authority.
8. No plant suspected by the Club's 'Virus Adjudicators' of being infected with virus will be eligible for competition and such plant(s) will be completely isolated from all other plants.
9. The exhibition area will be closed during judging. No exhibitors, public or member other than the Show Marshall, Registrar of Judges, Judges and Associate Judges of the Club and other person so appointed as to assist with the judging will be allowed to remain in the exhibition area during this period.
10. Non-exhibitors are requested not to congregate in the exhibition area prior to judging so that Officials can arrange plants and perform other necessary duties unhindered.
11. Plants must be labelled with the colored labels provided by the Club with exhibitor's number and name of plant. Supply of these labels can be obtained from the Show Marshall or his nominee.
12. Exhibitors are to ensure that that all labelling be neatly and correctly performed in accordance with the procedure laid down on Orchid Nomenclature and Registration. Labelling shall be legible from a reasonable distance.
13. All exhibits must be benched by 3.30pm on Saturday 19th July 1986.
14. Exhibits must not be removed before 12.30pm on Saturday 26th July 1986.
15. Exhibitors unable to remove their own plants from the Show should provide the person doing so with a letter of authorisation.
16. Damage caused in transit to the Show should be reported to the Show Marshall or Registrar of Judges prior to the commencement of judging.
17. If in the opinion of the Judge, a plant not being worthy of an award or prize in any specified section, then none shall be given.

--ooo0000ooo--

The SOUTH COAST ORCHID CLUB of SOUTH AUSTRALIA Inc.

WINTER SHOW 1986 PRIZE SCHEDULE

COLONNADES SHOPPING CENTRE

Benching 19th July 1986

SHOW 21st July 1986 to 26th July 1986

1.	Champion Bloom of Show	W.A. Young Trophy plus Club Medalion
2.	Champion Miniature Cymbidium	\$20.00 plus Club Medalion
3.	Champion Intermediate Cymbidium	\$20.00 plus Club Medalion, R.A. Hill Trophy
4.	Champion Standard Cymbidium	\$20.00 plus Club Medalion
5.	Champion Seedling of Show	\$20.00 plus Club Medalion
6.	Champion Bloom not otherwise classified	\$20.00 plus Club Medalion

A trophy to the value of \$5.00 will be awarded in each of the OPEN, FIRST & Second division in the following classes :-

7. Paphiopedilum - seedling
8. Paphiopedilum - species
9. Paphiopedilum - novelty
10. Paphiopedilum - hybrid
11. Cattleya - seedling
12. Cattleya - cluster
13. Cattleya
14. Palaenopsis
15. Australian Native Terrestrial
16. Australian Native Epiphyte
17. Australian Native Hybrid
18. Best Seedling other genera not otherwise classified
19. Best other genera not otherwise classified
20. Best species not otherwise classified
21. Best Standard Cymbidium - seedling
22. Best Standard Cymbidium - yellow
23. Best Standard Cymbidium - green
24. Best Standard Cymbidium - red
25. Best Standard Cymbidium - pink
26. Best Standard Cymbidium - white
27. Best Standard Cymbidium - any other colour
28. Best Standard Cymbidium - specimen
29. Best Miniature Cymbidium - seedling
30. Best Miniature Cymbidium - yellow
31. Best Miniature Cymbidium - green
32. Best Miniature Cymbidium - red
33. Best Miniature Cymbidium - pink
34. Best Miniature Cymbidium - white
35. Best Miniature Cymbidium - any other colour
36. Best Miniature Cymbidium - specimen
37. Best Intermediate Cymbidium - seedling
38. Best Intermediate Cymbidium - yellow
39. Best Intermediate Cymbidium - green
40. Best Intermediate Cymbidium - red
41. Best Intermediate Cymbidium - pink
42. Best Intermediate Cymbidium - white
43. Best Intermediate Cymbidium - any other colour
44. Best Intermediate Cymbidium - specimen
