NOVEMBER **ISSUE** **1991:**

NEXT MEETING: Tuesday 12th November 1991
Lutheran Church Hall, Windsong Crt, Morphett Vale
Benching of plants to be completed by 7.45pm
for judging.
Meeting begins at 8.00pm.

GUEST SPEAKERS: Ted and (Birthday Girl) Marjorie Chance will tell
the meeting of their experiences in Perth at the
12th Australian Orchid Conference. Ted and Marjorie
'organized' the South Australian exhibit, and
were on the Judging Panels.

SUPPER: Mrs Trix Anderson will be in charge.

HALL SET-UP: Would all willing to assist please arrive by 7pm.

DAY-TIME CHAPTER: 2pm Thursday 14th November 1991, South Brighton
Community Hall, Dover Square Reserve, Broadway,
South Brighton. Mr Laurie Dundon will present slides
of Western Australian terrestrial orchids. This will
be a most informative program.

TRADING TABLE: Mr. Dennis Daykin.

COMMITTEE MEETING: Tuesday 19th November 1991, 7.30pm at the South
Brighton Community Hall.

DAYTIME CHAPTER

H. Viney

Approximately 31 members and visitors were present at the October meeting. It was most pleasing to welcome 3 new members to the Club.

The guest speaker, Bev Carpenter, a judge of South Coast, gave a very interesting talk of her visit to the 12th Australian Orchid Conference Show held in Perth in September.

The theme for the Show was 'Orchids are fun in '91' and was very well illustrated in the various displays by local growers. The Show also included exhibits by interstate and overseas societies and growers.

Andy Easton, a New Zealander whom some of you will remember from Orchids '86, won the Grand Champion Orchid with a beautifully grown and flowered Paphiopedilum Picture Rock 'Sandstone'. Robertson Orchids of Nambour, Queensland, won the Reserve Champion with Phalaenopsis (Arai X Musashino) Whangarei Orchid Society, from New Zealand, put in an excellent cut-flower display that won First Prize in the overseas society category.

The central point of the Show was a full sized Merry-Go-Round. Featured in the displays were clowns, a Punch and Judy Show, and many other ideas to blend in with the variety of orchids and the theme. Another feature of the show was a Floral Art Display.

At the conclusion of the talk Bev showed a number of slides of the show.

Popular vote was won by Blc. Kebir grown by H. Viney with 4 large mauve-purple flowers. John Illman's Oncidium Golden Sunset 'Taka', a very nice red and white on a small plant, coming in second, but also being chosen by Bev Carpenter as her choice of the plants benched.

The meeting concluded with the usual cuppa and friendly chat.

NEW MEMBERS

It is with pleasure that we welcome to the Club the following new members-

R.J. Baker of Seacliff Park
W.& R. Clark of Hallett Cove
V. Bicanin of Mitchell Park
Happy orchid growing.

JUDGES' ROSTER NOVEMBER MEETING

Leaders	Open Div.	J. Gay
	First Div	R. Pankoke
	Second Div	B. Bower

Please advise K. Northcote if unavailable.

Please meet at the Judges' table no later than 7.50pm. South Coast judges to set up benches by 7.30pm and assist leaders.

SPRING SHOW 1991 K.H. Northcote
Congratulations to all who exhibited at the Clubs first 2 day Spring Show. Financially, the Club made a small, but most useful, profit. I felt that it was the most satisfactory and happy Club Spring Show for a number of years. Many visitors expressed their appreciation, both of the mass of orchids exhibited, and of the pleasure they had in seeing the orchid blooms close-up, and being able to clearly read the name tags. There were many complementary comments made to me and to the other committee members. Well done members. Special thanks are due to all who helped in any, and every, way. Again, I say, "Well done and thank-you". My reading of 'Orchids Australia' indicates that 2 day Orchid Shows are popular right around the country!

CHRISTMAS LUNCHEON

Place : Crystal Palace Chinese Restaurant, 241 Diagonal Road, Warradale. (Corner of Dunrobin Rd)

Date & Time : Sunday November 24th, 12 noon for 12.30pm.

Cost: \$15 per head.

Please pay at the November Cultural or Daytime meetings. All members, their partners, and friends, are welcome whether or not they indicated they could attend at the October meetings. When paying please state whether you wish to partake of a Chinese Banquet or prefer an Australian meal (Chicken or Steak).

NEW CATTLEYAS

From notes given to me by Rob Worden after he addressed the September Cultural Meeting. Ed.

When asked to present this talk earlier this year I approached three overseas and one Australian nursery to obtain information. To my surprise the approach they took varied considerably. i.e.

Fordyce: Slides of first flowering seedlings & a list of current crossings in the flask.

Stewarts: Slides of a few new hybrids with information of their flower size and the parents used.

Miyamoto: A few new seedlings, tried and true parents.

Aranbeem: Slides of new plants that have received show recognition.

From this exercise I have learnt that one has to be very specific.

Here's a little of the history of each nursery.

Fordyce Orchids : Frank is considered an authority in the Mini Cattleya field. He has had many years of growing and hybridising in his own nursery and for Stewarts and Rod McLellan.

For his breeding program he has access to a large gene pool

The U.S. market for Fordyce Orchids consists mainly of -

1 Pot Plant : Sell flowering plants that are thrown away when flowers die.

2 Require plant to bloom quickly (2 years out of flask) so that the glasshouse is cost efficient.

3 Bright colours on small plants that are appealing.

4 Anything different i.e. Encyclia X Slc.

Current trend for Fordyce is to cross Mini with Standard size Catts in the hope that larger blooms on dwarf plants will result. (Bet mine will be small flowers on standard growth)

In the Laboratory Fordyce has -
Pot. Aussie Pet X Slc. California Apricot

Blc. Drumbeat X Slc. Hazel Boyd

Epi. nemorale X C. harrisoniae

Slc. Dixie Jewels X Precious Stone Slc. California Apricot X

loddigesii

The Australian Agent is Royale orchids & Adelaide Orchids also have a few.

Stewarts were established in about 1941. Primarily they produced Standard Mauve-Purples. Recently (1988) they combined with Armacost & Royston. Now they have white, purple, mauve and pinks. They grow cymms, catts, phals, paphs, and miltonias.

Their breeding program briefly is to expand the colour range and flowering season of standard cattleyas, but also on a smaller scale, keep on with proven mini catt. breeders i.e Slc. Precious Stones.

Stewarts are currently producing summer flowering standards of reasonable shape.

Australian distributor, Royale Orchids, has currently flasks of crosses that will not be offered to the U.S. public for sometime.

Miyamoto Orchids is a Hawaiian company founded by the late Masatoshi (Miya) Miyamoto. Currently the company is run by his wife Helen and son Calvin.

Miya bought his first orchid in 1936 and started Miyamoto Orchids in 1946.

To be continued.....

OCTOBER 1991 MONTHLY COMPETITION
FLOWER OF THE MONTH

DENDROBIUM linguiforme grown by Michael Cunningham

This delightful specimen of the tongue orchid growing on a portion of a small branch had about 20 spikes each of 12 to 20 flowers of glistening white. It is a widespread native orchid in eastern Australia from north-eastern Qld. to south-eastern N.S.W. and grows in a range of habitats from trees in the rainforests to rock formations in open forest. In cultivation it is reputed to be an easy orchid to grow and is best suited to slab culture. However as with many species orchids some specimens perform better than others, but it is still worth a try. Congratulations Michael on a well grown and flowered plant.
