Wanted

Your flowering orchids to make a good display for the Club at the
SAROC Orchid Fair

WHERE: Walkerville YMCA, Smith Street, Walkerville

WHEN: between 6:00pm and 8:00pm Friday 7th June

If you can't get there then call Murray.

Help on the night putting the display together also appreciated

Presidents Report for Month of May

This past month had been quite active.

An autumn show and 3 Club meetings.

Firstly, the show at Colonnades, although smaller than usual plants exhibited were excellent quality. The trading table could have achieved greater sales had there been more plants available. We were encouraged by the interest in us and we have several potential members from that show.

Congratulations to the winners of prizes and particularly the Flavels who were successful in breaking the dominance of the past years of Richard and Beryl Wilson in the best Cattleya class and therefore recipients of the Harry and Berna Viney Trophy.

At the normal monthly meeting a very good benching of quality plants was achieved, my congratulations to the various successful members in achieving these awards. Our guest speaker Jane Higgs entertained us with a talk supported by slides of how she had coped in the growth of their collection and housing for same. Thank you Jane and Don.

The species group met on the 1st Monday of the month and we were treated to display and discussion of unusual plants. The plant selected by the group as the most unusual plant was owned by Gerald Voskamp.

Daytime group met at the start of the rough and cold weather pattern we have experienced. Unfortunately the numbers attended were below the average we have been achieving but a very enjoyable meeting was conducted and members were entertained by member Bill Clark who spoke on Amazing Orchid Facts. Followed by slides of some of his and Ruth's plant collection and other plants had seen and liked.

My personal condolences to Berna Viney and family on their recent loss.

We welcome two more members to the group our last month they being Rex Diwell and Des Bettcher.

The time is right for selecting and training our plants for the forthcoming SAROC fair on June 8th and Winter Show on July 21st at Pasadena. (Details re SAROC elsewhere in the Magazine).

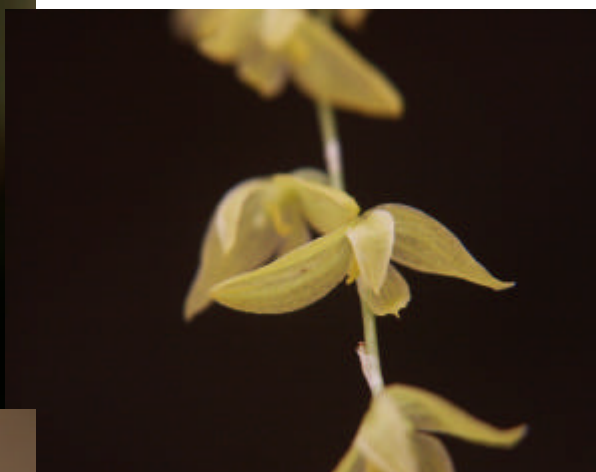

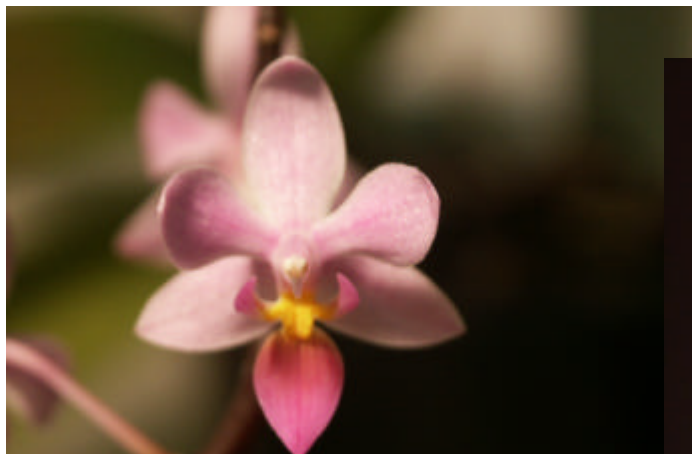

Final details of Winter Show next month.

Good growing
M T Baulderstone, President

Welcome to our New Members

Rex Diwell and Des Bettcher.

South Coast Species Group

Some of the orchid species on display from top left

Phal. Amabilis
Pleuro. Longissima
Lemb. bictonirise

had some quite interesting plants to discuss and in particular where some plants are not necessarily true to label.

Shortly we will be showing a series of species orchid slide programs from the A.O.C. , and we will inform you as they come to hand.

A species seedling competition is also envisaged in the near future.

Ron

The Group is now settling into an easy routine of plant discussion and this month we

Daytime Report

We had only a relatively small group at the daytime meeting as the weather was pretty wild and woolly and took everyone by surprise. So about fifteen members gathered to hear Bill Clarke talk on Amazing Orchid Facts. There were some amazing facts too as orchids have been around for an awfully long time. Bill finished his presentation with some very interesting slides.

Our raffle prizes were donated by four different people – thank you to all who gave them.

We had five orchids benched and the popular vote was almost unanimous for Peter and Geraldine Flavel's

Blc. Zilzie Fry 'J. K.' Another very nice Cattleya owned by Mr. Ransley came second.

A date to put in your diaries is August 15th when the daytime group will pay a visit to Geoff Spear's to see his orchids – remember everyone is welcome to come along to any of the Daytime group's activities.

Jane Higgs.

as

Open Division Flower of the Night and of Open Division

Rossioglossum grande grown by Gerald Voskamp.
For the third month in a row we have had this species
the flower of the night and again an excellent exam-
ples of this species.

Second Division

Flower of Second Division

C. Portiata 'Mel' grown by John Robinson.
I understand that this is the first time that John has benched a
plant so it is an excellent effort. There were 3 above average Flow-
ers with good colour on a strong upright stem. John had a strong
wire clipped across the top of the pot to secure the plant in place,
an interesting idea. Congratulations to John, I hope there will be
many more wins to follow for you.

First Division

Flower of First Division

Paph. Glaucopar grown by Suzanne Wilcox.

Suzanne has grown this plant in a home made self watering pot in a medium of small bark. It had 2
rather attractive flowers which were green with maroony brown striations on the pouch and spotting on
the other segments. *Paph. Glaucopar* is a primary hybrid from *Paphs. parishii* and *glaucophyllum*.

(See picture under Autumn Show results)

Z. James Strauss = Z. (B G White x Artur Elle)

From the Registrar

The Autumn Show is now behind us and we have a date and venue for the Winter show. Although small the show had some excellent plants displayed with Cattleyas in predominance as is usual for this time of the year. Congratulations to all those who won.

I had 3 responses to my query regarding *Cym*. Easter Show which does not appear in the registrations. All 3 identified it as *Cym*. Mini Splendour 'Easter Show'. So thankyou to Tony Bourne, Gordon Brooks and Helmuth Gerber.

In his commentary this month Richard Fishlock made mention of the presentation of plants for benching. Simple things like cleaning the leaves with a milk / water mix so they have a nice sheen to them as well as being clean, trimming any stakes so they do not protrude above the flowers and ensuring the stakes are as inconspicuous as possible. The idea is to display the flowers to best advantage because they are the reason we grow and show orchids. Its probably time to consider devoting time at a meeting looking at and discussing preparation and display of plants for benching.

I look forward to members supporting the club at the SAROC fair and that we will have many flowers bought along to put in our display and so help promote our club.

Don Higgs

We Sadly report the passing away of our Life Member "Harry" Viney

Harrison George Viney 1922 – 2002 was a stalwart of the South Coast Orchid Club of South Australia for many years. Known affectionately as "Harry" by most of the orchid growing fraternity, he was never happier than when helping the Club or its members. Berna, his wife, joined him whole-heartedly in these activities. In due time both Harry and Berna became life members of the Club.

When I joined the Club in the mid 1970's, I seem to recall that John Leeder was President, and Harry was Secretary, and that it was these two and the rest of their committee that steered the Club into their new meeting place, the Lutheran Church Hall, Christie Downs from their former abode the RSL Hall in Morphett Vale. John and Harry were a dynamic duo that established a new and vigorous Club. In those days the ladies of the Club studied flower arrangements of orchid blooms at separate meeting nights too. Lois Hansen helped greatly there-in. Harry became president of the Club in the early 1980's, and was foremost in all Club activities, for example, his secretarial activities for the Daytime chapter. Of course, Harry and Berna invariably had plants on the Show Bench. There was usually a prize or two around but nothing really major until 2001 when their *Cym*. Without Peer "Soft Touch" won Grand Champion at the Club's Spring Show. To say they were delighted is putting it mildly, indeed, and most Club members were very happy for them too. Most deserved.

We will miss you Harry.

Keith H. Northcote.

AUTUMN SHOW RESULTS

Autumn Show Champions

Congratulations to the following winners:

Grand Champion : *C. Porcia* 'Cannizaro' grown by Peter and Geraldine Flavel

Reserve Champion : *Lc. Lisa Anne* x *C. Pink Elephant* grown by Ron and Irene parish

H. & B. Viney Trophy : *C. Porcia* 'Cannizaro' grown by Peter and Geraldine Flavel

Open Division Champion : *C. Porcia* 'Cannizaro' grown by Peter and Geraldine Flavel

First Division Champion : *Paph. Glaucoapar* grown by Suzanne Wilcox

Second Division Champion : *C. bowringiana* x *Lc. Warnham Beauty*

**16th Australian Orchid Conference and Show
in Adelaide - September 2003
Social Events**

Planning for the conference is now well advanced, details of speakers, commercial sellers, show rules and judging standards are in place and tours and social events have been organised.

Opening Night - Wednesday 17th

The introduction to the conference will be the opening night dinner at 6.30pm. This will be held in the banqueting room at the Royal Adelaide Showgrounds just a short walk from the exhibition area. All Registrants are free to attend this function that traditionally welcomes delegates to the Conference. This is an ideal time to get to know your fellow Registrants.

Hospitality Night - Thursday 18th

This is the night when members of the Orchid Clubs of SA invite you to their homes for a meal and orchid talk. This is a good way to meet other orchid growers from different areas to discuss growing methods and for general orchid talk. To be included in this night make sure you tick the box on the registration form and include the area or genus of orchids you are interested in.

Mystery Night - Friday 19th

For obvious reasons this is a mystery but you can be sure it will be a lot of fun. Don't miss it.

Banquet Night - Saturday 20th

The banquet night at any conference is usually the highlight of the event, this one will not disappoint. It starts at 6.45pm at the Corus Grosvenor Hotel in the heart of the City of Adelaide. This is one of the oldest hotels in the city and regarded by many as one of the best. A fun night is guaranteed. At this function major prizes will be presented to the lucky winners and all will enjoy a delicious meal.

B.B.Q. Lunch - Sunday 21st

This is the final function at the conference prior to dismantling the show. This is on at 12.30pm. It will be held under the Atrium adjacent to the show area at the show grounds. Come along to say farewell to your old and new friends and enjoy a typical Aussie B.B.Q.

Conference Tours

Local Tour - Wednesday 17th

This tour is on the day of judging. Many registrants who are not involved with judging may like to take this tour. It is a full day tour visiting factory outlets, Mt Lofty lookout and Botanic Gardens, Hahndorf, the historic German town the home of the Australian artist Hans Heysen, with art and craft shops and a chocolate factory.

Nursery Tour 'A' - Thursday 18th

This tour includes visits to Kevin Western Orchids specialising in Disa's, Australian Natives & miscellaneous orchids. Adelaide Orchids for zygotepalum alliance & miscellaneous orchids and Valley Orchids for Cymbidiums.

Nursery Tour 'B' - Friday 19th

Will include visits to Nicky Zurcher Orchids (Leading Paphiopedilum hybridiser & grower), Glenn Heylen's Cymbidium pot plant production nursery & Dean Roesler (specialist Cymbidium hybridiser).

Native Orchid Tour - Saturday 20th

Native Orchid Society SA members will take Registrants on a walking tour to see native terrestrial orchids growing in-situ in the Adelaide Hills. The tour will conclude with a visit to Les Nesbitt, leading terrestrial grower & hybridiser.

Carrick Hill - Sunday 21st

A morning tour to visit this historic property. The Tudor style house was set in almost 40 hectares of scenic bushland when created by Sir Edward Hayward & Ursula Barr-Smith after their marriage in 1935. Today meander through the sculpture gardens or admire the fine collection of Australian, English & French paintings which adorn the inside walls of this grand house. You will return in time for the B.B.Q. lunch in the Show grounds.

Pre/Post Conference Tours

Kangaroo Island

One and two day tours can be organised to Kangaroo Island departing at 6.45am & returning 10.45pm visiting the scenic delights of that island, walk among the seals at Seal Bay & Admirals Arch, see the kangaroos at Flinders Chase National Park. Lunch is included on both tours and accommodation on the two-day tour.

Other tours to Barossa Valley Region-Southern Fleurieu Peninsular- Coorong Murray Mouth- Murray River Cruises- Coober Pedy- Flinders Ranges- Ayers Rock etc. Can be arranged full details of these tours will be provided on application.

It's not too late to be on our mailing list – contact by email fishy@arcom.com.au.

Richard Fishlock
Conference Chairperson

Oncidium barbatum

This species is found in Bolivia and Brazil. The flowers reach three centimeters in diameter on a stem about 300mm and carry about 10 flowers.

This plant grows for me in my Cattleya house near the heater under medium shade.

Sponsors for our Club

We wish to thank the following persons who have supported us and our shows with donations etc.
