The Club is organising to buy a Palete or more of Van Schaikes Mt Gambier bark delivered to Adelaide for a cost under \$13.50 per bag of any grade (as long as a full palette is ordered) Please Contact Murray or Ron for a firm commitment to order. When we have a sufficient orders we will contact you for payment and

as ordered) Please Contact Murray or Ron for a firm commitment to ordered a sufficient orders we will contact you for payment and Delivery times

(Normal retail is approx \$18.00 par bag)

#### 16 th. A.O.C. Conference and Show Update.

A very successful briefing meeting was held on Saturday 13 th. July, with about 40 people in attendance. From details supplied to me, all Orchid Clubs in the Metropolitan area were represented and a couple of Country Orchid Clubs – apologies were received from some who could not make it

The information given at this meeting, included the planning and expectations of a Committee of five people who meet once a month with specific agenda items to address.

Your representative should be in a good position to convey the details supplied and I encourage all Orchid Growers to seek this information and take pride in the fact that it will be a great opportunity to show case Adelaide and take some personal credit for it's success.

The Registration booklet will be available to any one wishing to have a copy and Margaret Hewitt will send copies to all Club Secretaries by the end of August.

Looking forward to your assistance. Richard Fishlock Conference Chairperson

#### MESSAGE FROM YOUR PRESIDENT

#### From the Meeting of July

Night time meeting was well attended and an excellent display of quality plants were benched, My personal congratulations to the members who were successful in achieving prizes.

It is interesting to note, Orchid of the Night, Paph. Insigne grown by Helmut Gerber was also crowned Grand Champion of the Winter Show. Well done Hemut. Graham Hazledine was our Guest Speaker who gave an interesting presentation of how he and Maureen grow their orchids. The talk, supported by visual presentation, was both informative and educational to all those present. Thanks Graham and Maureen.

#### From the Day time

Those 21 members who attended were entertained by Past President Jane, supported by Don who gave us an insight on "Conservation on their property at Myponga". As well as being members of the Hills Catchment Group, they do a superb job in land management, propagating natural plants to establish on their land and destroying invasive plants of the non-natural nature. They have a considerable number of Native Orchid species in existence and they spend considerable time and funds to protect these. Some species are the only colony of these types existing in our State on this property! Well done, Jane and Don.

#### **Winter Show**

This event commenced yesterday, 21" July, 2002, and, as always, your Club has presented a large spectacular show to the public, possibly one of the largest Winter Shows I have seen in my 10 years as a member. Congratulations to all those members who were able to take part and were successful in their various competition.

Pre Show Time is always a time of concern for your committee as we never know to what extent we will have plants available for display and trading table. Well done to you, the members, together with my personal thanks, it would be remiss of me if I did not mention some people specifically.

Don Higgs as Registrar and his team of Judges (a large percentage of them being Club members), Lesley Gunn as Show Marshall, Rosalie Moore, Jane Higgs and the members who helped build the display, a fantastic effort — Thank you . Ron Parish, Suzanne Wilcox & Geraldine Flavel for the production of Certificates. Helmuth Herrmann, Merv Steele for safety fencing and support infrastructure. Graham Shev1in for Trading Table management and set up.

A discussion with the owner of the Centre prior to closing the store on Sunday, I conveyed our appreciation for allowing us to use the facility. He was most impressed with your efforts and has agreed to allow us to have our Spring Show in September at the Store.

In conclusion, my apology to any person I have omitted to thank personally, but I believe that the theme I have adopted as being the Friendly 3 Club, is alive and well.

#### **Spring Show**

Will be held in the Pasadena Shopping Centre Foodland Shop between September 22 to September 28 2002.

Setup times and other instructions will be in the September Gazette

## **South Coast Species Group**

Considering the temperature this month we had a good attendance and some quite unusual orchids were brought along for the group discussion the most impressive orchid was Den. sanderianum brought along by Neil Shirley. (photo above)

Our intending show was discussed and some ideas re setup and display were put forward for us to work with . It appears certain that we will show for the last 2 days of the SCOC Spring Show at Pasadena Shopping Centre.

Ron

#### Flower of Second Division

Cym. Without Peer 'Soft Touch' grown by John Robinson. The beautiful soft pale pink flowers make this grex a real eye catcher. This plant had 2 inflorescences both with a number of buds still to open. When growing this plant the inflorescences need to be allowed to arch or, if you wish the inflorescences to be upright, then they need to be stretched using elastic attached to a point vertically above the flowers. Doing this avoids the flowers becoming bunched and not displaying themselves to best advantage. Both parents (Cym. Kurun and Cym. Pendragon) are also best displayed with arching inflorescences.

# Flower of the Night and of Open Division

Paph. insigne grown by Helmuth Gerber When grown in the right conditions and potted on rather than broken up, Paph. insigne can be grown into a magnificent specimen plant as is the case with this example. In her commentary, Jane noted that it had 13 very fresh looking flowers with a beautiful gloss on the pouch. One inflorescence had 2 flowers which is very uncommon with Paph. insigne. It was growing in a 10" pot and in Adelaide will grow in similar conditions to Cymbidiums.

#### Flower of First Division

Paph. insigne grown by Murray Baulderstone. Another specimen of Paph. insigne and, although smaller than the one in open division, was another good example of this species.

Registrations This Month

Paph. (Gigi x charlesworthii) = Paph. Charlies Girl

Den. (Pinterry x Visheen) = Den. Vintage

ALSO please note the correct spelling for the Australian native epiphyte hybrid is:

Den. Ku-Ring-Gai and not Den. Kuringai

If you have a plant please check the spelling and correct if necessary.

#### From the Registrar

Well what type of orchid year are you having?

It seems that every year has its own peculiarity as to how our orchids grow. Last year our very hot spell played havoc with the early flowering Cyms in particular with some flower buds on the inflorescences "wogging" off. The cool summer this year seems to have affected the number of spikes and also the flower count. We have quite a number of usually good flowering Cyms that this year only have between 3 and 5 flowers on a spike. A member recently commented that his spike count was down by around 400 this year which is a lot for a cut flower grower.

On the other hand this year seems to have been a very good year for Rossioglossum's. At our club we had *Rossioglossum grande* as Flower of the Night 4 months in a row. There were some excellent examples of this species at the SAROC Orchid Fair as well. Our own plant had 27 flowers on 3 inflorescences and was a magnificent site. Unfortunately it had 3 deformed flowers on 2 of the inflorescences each of which were lacking petals. From discussion at the June Judges meeting it seems that this is a very common problem with this species along with very variable markings on the segments.

I am looking forward very much to the coming Winter show. I have an excellent judging team lined up so I hope we have lots of good quality orchids for them to judge. I am not certain of the time line for the gazette but no doubt there will be some room for the major prizes to be listed and maybe some photos. Now I must start my preparations (very late I must admit) for the judging.

Don Higgs

Helmut Gerber's Grand Champion Orchid Paphiopedilum insigne

Our Display at the Pasadena Shopping Centre

#### DAYTIME GROUP REPORT.

As I mentioned at the daytime meeting, the weather on our Thursday meeting day always seems to be extreme – either very hot, or very windy, very wet etc. However the unpleasant weather this month did not deter members from venturing out, and we had 21 members at the meeting who I regaled with the story of swamp conservation, and therefore native orchids and our involvement with the Mount Lofty Water Catchment Conservation Scheme. Don did a wonderful job illustrating my talk with computer pictures.

We had seven plants benched and Don gave a commentary on these. As is often the case with our guest speakers, or with people commandeered to give their views on the benched plants, our popular vote did not agree with Don's chosen orchid. The popular vote gave equal first place to Cymbidium Pendragon x Bethlehem and Paphiopedilum Tearloth x Sparsholt. The cymbidium was grown by Geoff Spear and had two inflorescences with very pretty pink flowers; the Paph. was grown by Peter and Geraldine Flavel and was a standard with a most impressive dorsal sepal. The second place (third orchid!) was Lc. Adelaide Ablaze'Sunburst' which was grown by Tony Delono. This orchid had two very spikes with 13 yellow/gold and red flowers on each – very eye-catching.

Don't forget next month we have a visit to Geoff and Lucy Spears to see Geoff's orchids – everyone is welcome. 2pm at 6 David Street, Happy Valley. To get there go by Glenloth Avenue, otherwise you will run into the creek!!

# **Sponsors for our Club**

We wish to thank the following persons who have supported us and our shows with donations etc.

Members are requested to keep these people in mind when purchasing orchids and supplies
